Kendal Jackson has returned in poor health and wrecked mind, in consequence of a Paralytic affection, since June if the people will not be admonished by a small last. His family were both glad and sorrowful, article, it is useless to try long ones. One word more. The Probate Judge now allows injunctions, roon their meeting a husband and a father. Such are however, the vicissitudes of mortals.

Our farmers are busy guthering the fruit of their toils. The yield of the wheat crop in some parts is abundant, while in other localities it in very light. being much injured by the weevil, The hay crop is excellent. The osts in some plares will some be ready to cut, and it is shought the crop was sever better in this county. The drospect for good crops of corn and potatoes is also very flattering.

From the Cleveland Herald, PROBATE JUDGES. Mr. HERALD :- Seeing that your paper has an extensive circulation in the interior of the State, (and great good would be done if it was largely d.) it affords an excellent medium for a few words of advice, and admonition to the people upon a subject more nearly and intimately consening them, and their interests, than is gener.

PERSONS laboring under this datressing manay will find Dr. Hance's Vegetable Epileptic Pills to be the only remedy ever discovered for curing Epilepsy or Palling Fits.

These pills possess a specific action on the nervous cerning them and their interests, than is generally supposed. The writer hereof is no politician, and although the subject of these remarks relates in some measure to the approaching election, there is in truth nothing of a party or political bearing designed, but a vastly higher if not holier purpose. Very little, quite too little consideration in many parts of the State, is given to the selection of suitable men for the important office of probate Judge. Under the old system it will be remembered, that all the duties now performed

was always a lawyer; hence the haviness of settling extens, whather by executors or admin latestors, the appointment of guardiers, and all resisters incident thereto, was under the supervision

Few people think that once in about forty years all the property in the country, real and personal, passes through the hands of executors, administrators and guardiana, and of course is in some form the subject of adjudication by the Probate Court. How would a man who never read a law book, acquit himself in deciding a stoutly contested will case, where the question was, whether the will was procured by fraud, ting up the announcement of ALFRED or the testator was insane? 'Tis only necessary to TABER, of Brown township, a candidate for the pat a single question of this kind, to show any reflecting man the extreme folly of permitting any other this a man of legal learning to occupy so important a public position, one who is familiar fact we have an infinite variety of with the rules of evidence, as well as a practical ARTICLES NEVEL BEFORE SEEN IN A secountant of an executor, and detect the false. double, or overcharges, designed to defraud crediters, heirs or widows. What a farre, to be obliged to apply to a tailor, blacksmith, or a farmer, to disits important legal bearing. Let none but men of legal learning be elected Probate Judge.
